EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Applicant failed to make of record the substance of the interview of December 10, 2004. In view of this, the following substance of the interview of December 10, 2004 is added. Applicant's representative faxed the examiner a number of claims December 10, 2004, such claims being for review by the examiner and for later discussion with applicant by telephone. A copy of the faxed claims is attached to the office copy of the interview summary record mailed December 14, 2004. The examiner reviewed the claims with respect to the prior art of record. Claims 9, 10, 12 and 15 of the faxed claims, after careful review by the examiner, were indicated during the interview by the examiner as containing allowable subject matter. No decision as to allowability of the remainder of the faxed claims was reached during the interview.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 and the claims depending therefrom and claim 8 are allowed for the reasons argued by applicant in the remarks section of the response filed December 24, 2004 under the subtitle "Claim rejections-35 USC 102".

Claims 9, 10, 11 and 13 and any claims depending therefrom are allowed over the art of record because none of the art of record taken alone or in combination suggest or fairly

teach either the support tray having a contoured alignment section matingly engaging a corresponding surface of the drive shaft supporting box, the battery support tray being placed in the watercraft such that a first part of the battery mounting structure rests on top of the drive shaft supporting box and a second part of the battery mounting structure rests on a top of an interior surface of a hull of the watercraft or hull, the contoured alignment section of the contacting member comprising a projection extending downward from an underside surface of the battery support tray, the projection fitting into the recess in the upper surface of the drive shaft supporting box so as to help maintain the position of battery mounting structure on the drive shaft supporting box, or said contoured alignment section comprising a projection extending downwardly from a lower surface of the battery support tray, for matingly engaging a recess of the drive shaft supporting box.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherman D. Basinger whose telephone number is 703-308-1139. The examiner can normally be reached on M-F (6:00-2:30 ET).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel J. Morano can be reached on 703-308-0230. The fax phone
